About PCMA

PCMA is a forward looking, valued and trusted apex body of Pakistan Chemical industry working to achieve competitiveness through sustainable growth and implementing best practices. PCMA is representing 100 plus enlightened members including champions, large, medium and small players, manufacturing thousands of diversified chemicals. Chemical industry with global outlay of \$5.7 trillion, is the 4th largest and 3rd fastest growing sector in international trade. Domestic chemical industry being at nascent stage has tremendous potential to take a larger share. PCMA at policy planning level in Government, taking forward strategic projects e.g. Petrochemical complex, and introducing projects promoting bio-economy to tap inherent strength of available resources in Pakistan.

Who Can Participate As Exhibitor/Trade Visitor?

The event provides a perfect interactive platform for renowned domestic & global chemical companies to participate and showcase their products. Apart from following chemical sectors, other participants having professional interest may also participate.

- PCMA Members
- Renowned Global & Domestic Companies

- Adhesives & Resins Sector
- Bio Economy Sector
- Petrochemical Sector
- Oleo Chemical Manufacturers/ Sector
- Acids Sector
- Hydrogen per Oxide Sector
- Mines & Minerals Processing Companies
- Water Treatment Companies
- Silicone Sealants Sector
- Soap & Cosmetics Sector
- Paper Sector
- Defence Manufacturing Facilitators
- After Market Sector
- OEMs
- Academia
- Government Officials
- Chlor Alkali, Alkali & Salts Products
- Fertilizer Sector
- Construction Chemicals
- Petrochemicals / Intermediates
- Detergents Sector
- Industrial Gases Sector

PCE 2022 Show Objectives

1. To demonstrate Pakistan's manufacturing potential, Strength and to Brand Pakistan's Chemical Industry internationally as a competitive sourcing destination through mobilizing B2B meetings, JVs & Academic collaborations.
2. Provide a bridging platform to manufacturers, importers, exporters, academia, and relevant allied industries with Chemical Sector and tap foreign investment in Technology, Digitization, Research & Development & best innovative practices.
3. Obtaining Government's support in carving out business friendly, safe & secured manufacturing policies by demonstrating the strength, manufacturing potential of the chemical industry to fetch a bigger share from global chemical business.

The Theme Of Conference

Surfing The New Waves

Hear from industry eminent leaders and experts about strategies for success and how to surf the turbulent waves affecting the chemical industry in Pakistan since decades. The future can be brighter for the industry if it strives toward self-reliance right from the feedstocks to the end product and produces products that solve societal and sustainability challenges aligned with Sustainable Development Goals (SDGs) of the United Nations.
